

Bearing No. 749/742

|                     |                                      |
|---------------------|--------------------------------------|
| Material            | 52100 chrome steel or<br>equiavelent |
| Width (B)           | 1.7500                               |
| Width (mm)          | 44,45                                |
| Weight (g)          | 4,080.00                             |
| Bearing Type        | single row assembly                  |
| Bore Dia (d)        | 3.3475                               |
| Outer Dia (D)       | 5.9090                               |
| Bearing number      | 749/742                              |
| Outer Width (Bo)    | 1.4375                               |
| Inner Width (Bi)    | 1.8375                               |
| Radius (min) (rs)   | 0.138                                |
| Bore Diameter (mm)  | 85,0265                              |
| Radius (min) (rs1)  | 0.130                                |
| Outer Diameter (mm) | 150,0886                             |
