

Bearing No. SQZ 14 C RS-1

|                               |               |
|-------------------------------|---------------|
| L                             | 109 mm        |
| d                             | 14 mm         |
| D1                            | 20 mm         |
| S1                            | 17 mm         |
| L2                            | 8 mm          |
| L3                            | 25 mm         |
| d2                            | 19 mm         |
| d3                            | 38 mm         |
| S2                            | 22 mm         |
| L1                            | 45 mm         |
| D2                            | 25 mm         |
| D3                            | 36 mm         |
| Angle                         | 11 °          |
| Weight                        | 0,277 Kg      |
| l1 min.                       | 28 mm         |
| l2 max.                       | 23,5 mm       |
| Thread (G)                    | M14x2         |
| Bearing number                | SQZ 14 C RS-1 |
| Basic dynamic load rating (C) | 8,7 kN        |
