

Bearing No. JLMi04947A/JLM104910

|                     |                                      |
|---------------------|--------------------------------------|
| Material            | 52100 chrome steel or<br>equiavelent |
| Width (B)           | 0.8652                               |
| Width (mm)          | 21,97608                             |
| Weight (g)          | 434.00                               |
| Bearing Type        | single row assembly                  |
| Bore Dia (d)        | 1.9685                               |
| Outer Dia (D)       | 3.2283                               |
| Bearing number      | JLMi04947A/JLM10491<br>0             |
| Outer Width (Bo)    | 0.6693                               |
| Inner Width (Bi)    | 0.8750                               |
| Radius (min) (rs)   | 0.020                                |
| Bore Diameter (mm)  | 50                                   |
| Radius (min) (rs1)  | 0.020                                |
| Outer Diameter (mm) | 82                                   |
