

**Bearing No. GEG8C**

|                                                     |                                   |
|-----------------------------------------------------|-----------------------------------|
| Weight (g)                                          | 14.00                             |
| Bore Dia (d)                                        | 8.0000                            |
| Outer Dia (D)                                       | 19.0000                           |
| Bearing number                                      | GEG8C                             |
| Outer Width (Bo)                                    | 6.0000                            |
| Inner Width (Bi)                                    | 11.0000                           |
| Bore Diameter (mm)                                  | 8                                 |
| Outer Diameter (mm)                                 | 19                                |
| Dynamic Load Rating (Cr)                            | 8,600                             |
| Static Load Rating (Cor)                            | 21,000                            |
| Mis-alignment Angle (α deg.)                        | 21                                |
| Spherical Diameter (dk or Dk)                       | 16.000                            |
| Bearing Type - high mis-alignment                   | high misalignment                 |
| Material - Outer Ring - Carbon steel, Inner ring    | 52100 Chrome steel, or equivalent |
| Max. shaft corner radius, or 45 deg. chamfer (ch1)  | 0.300                             |
| Max. housing corner radius, or 45 deg. chamfer (ch) | 0.300                             |
