

# Deep Groove Ball Bearings (6000, 6200, 6300, 6400) | 6309/RS

Bearing No. 6309/RS

|                          |                  |
|--------------------------|------------------|
| Weight                   | One Contact Seal |
| Radius Rs min            | 0.84 Kg          |
| Outside Ring Width B     | 1.500 mm         |
| Outside Diameter D       | 25.000 mm        |
| Features                 | 100.000 mm       |
| Cr - Dynamic Load Rating | 11000 rpm        |
| C0r - Static Load Rating | 7800 rpm         |
| Bore Size d              | 48.8 kN          |
| Clearance                | C0 (Normal)      |
| Bearing Type             | 29.3 kN          |
| Grease Reference Speed   | 45 mm            |
| Oil Reference Speed      | Standard DGBB    |
