

## Deep Groove Ball Bearings (6000, 6200, 6300, 6400) | 6311/2RZ/NR

Bearing No. 6311/2RZ/NR

|                                               |                                  |
|-----------------------------------------------|----------------------------------|
| Weight                                        | Non-Contact Seals With Snap Ring |
| Radius Rs min                                 | 1.350 Kg                         |
| Outside Ring Width B                          | 2.000 mm                         |
| Outside Diameter D                            | 29.000 mm                        |
| Features                                      | 120.000 mm                       |
| Cr - Dynamic Load Rating                      | 10000 rpm                        |
| C0r - Static Load Rating                      | 6700 rpm                         |
| Bore Size d                                   | 71.5 kN                          |
| Clearance                                     | C0 (Normal)                      |
| Bearing Type                                  | 44.6 kN                          |
| Grease Reference Speed                        | 55 mm                            |
| Oil Reference Speed                           | Standard DGBB                    |
| r - Outer Ring "To Clear" Radius <sup>3</sup> | 2.820 mm                         |
