

Deep Groove Ball Bearings (6000, 6200, 6300, 6400) | 6314/RS/C3

Bearing No. 6314/RS/C3

|                          |                  |
|--------------------------|------------------|
| Weight                   | One Contact Seal |
| Radius Rs min            | 2.5 Kg           |
| Outside Ring Width B     | 2.100 mm         |
| Outside Diameter D       | 35.000 mm        |
| Features                 | 150.000 mm       |
| Cr - Dynamic Load Rating | 8200 rpm         |
| C0r - Static Load Rating | 5700 rpm         |
| Bore Size d              | 104.1 kN         |
| Clearance                | C3               |
| Bearing Type             | 68 kN            |
| Grease Reference Speed   | 70 mm            |
| Oil Reference Speed      | Standard DGBB    |
