

**Bearing No. 6321M/C3**

|                          |                      |
|--------------------------|----------------------|
| Weight                   | Open With Brass Cage |
| Radius Rs min            | 9.998 Kg             |
| Outside Ring Width B     | 3.000 mm             |
| Outside Diameter D       | 49.000 mm            |
| Features                 | 225.000 mm           |
| Cr - Dynamic Load Rating | 6000 rpm             |
| C0r - Static Load Rating | 4200 rpm             |
| Bore Size d              | 183.7 kN             |
| Clearance                | C3                   |
| Bearing Type             | 153.1 kN             |
| Grease Reference Speed   | 105 mm               |
| Oil Reference Speed      | Standard DGBB        |
