

# loyal Deep Groove Ball Bearings (6000, 6200, 6300, 6400) | 6305/NR/C3

**Bearing No. 6305/NR/C3**

|                                               |               |
|-----------------------------------------------|---------------|
| Weight                                        | Snap Ring     |
| Radius Rs min                                 | 0.220 Kg      |
| Outside Ring Width B                          | 1.100 mm      |
| Outside Diameter D                            | 17.000 mm     |
| Features                                      | 62.000 mm     |
| Cr - Dynamic Load Rating                      | 17000 rpm     |
| C0r - Static Load Rating                      | 12000 rpm     |
| Bore Size d                                   | 20.6 kN       |
| Clearance                                     | C3            |
| Bearing Type                                  | 11.2 kN       |
| Grease Reference Speed                        | 25 mm         |
| Oil Reference Speed                           | Standard DGBB |
| r - Outer Ring "To Clear" Radius <sup>3</sup> | 1.700 mm      |
