## Deep Groove Ball Bearings (6000, 6200, 6300, 6400) | 6306/NR/C3

Bearing No. 6306/NR/C3

|                                               |               |
|-----------------------------------------------|---------------|
| Weight                                        | Snap Ring     |
| Radius Rs min                                 | 0.350 Kg      |
| Outside Ring Width B                          | 1.100 mm      |
| Outside Diameter D                            | 19.000 mm     |
| Features                                      | 72.000 mm     |
| Cr - Dynamic Load Rating                      | 15000 rpm     |
| C0r - Static Load Rating                      | 10000 rpm     |
| Bore Size d                                   | 26.6 kN       |
| Clearance                                     | C3            |
| Bearing Type                                  | 14.9 kN       |
| Grease Reference Speed                        | 30 mm         |
| Oil Reference Speed                           | Standard DGBB |
| r - Outer Ring "To Clear" Radius <sup>3</sup> | 1.700 mm      |
