

Bearing No. 6408/N/C3

|                          |               |
|--------------------------|---------------|
| Weight                   | O.D. Groove   |
| Radius Rs min            | 1.25 Kg       |
| Outside Ring Width B     | 2.000 mm      |
| Outside Diameter D       | 27.000 mm     |
| Features                 | 110.000 mm    |
| Cr - Dynamic Load Rating | 11000 rpm     |
| C0r - Static Load Rating | 7800 rpm      |
| Bore Size d              | 63.7 kN       |
| Clearance                | C3            |
| Bearing Type             | 34.6 kN       |
| Grease Reference Speed   | 40 mm         |
| Oil Reference Speed      | Standard DGBB |
