

Bearing No. 6228M/C3

|                          |                      |
|--------------------------|----------------------|
| Weight                   | Open With Brass Cage |
| Radius Rs min            | 8.460 Kg             |
| Outside Ring Width B     | 3.000 mm             |
| Outside Diameter D       | 42.000 mm            |
| Features                 | 250.000 mm           |
| Cr - Dynamic Load Rating | 4900 rpm             |
| C0r - Static Load Rating | 3400 rpm             |
| Bore Size d              | 166 kN               |
| Clearance                | C3                   |
| Bearing Type             | 150 kN               |
| Grease Reference Speed   | 140 mm               |
| Oil Reference Speed      | Standard DGBB        |
